Item-by-Item Instructions
for Completing EPA Form 7710-53

Return completed form to:

Chemical Regulation Branch
Office of Toxic Substances
TS-798
U.S. Environmental Protection Agency
401 M St., SW
Washington DC 20460

No information on the form may be claimed confidential.

Type or print in black ink at all times, except Item VII, "Certification". If you must use additional sheets, indicate clearly the number of the item on the form to which the information on the separate sheet applies. In the area marked "For Official Use Only" enter the name of the owner of the facility in the box provided.

Item I - Name of Facility: Enter name of the facility.

Item II - EPA identification number (if already assigned under RCRA): Enter the identification number of the facility was assigned under the RCRA hazardous waste notification regulations. If no identification number has been assigned, leave this space blank.

Items III and IV - Facility mailing address and location: Complete items III and IV. Please note that the address you give in Item IV, "Location of Facility", must be a physical address not a post office box or route number. If the mailing address and physical location are the same, you may enter "Same" in Item IV. If the facility is a mobile facility, you may enter "mobile" in Item IV, and provide the mailing address for the installation contact in Item III.

Item V - Installation contact: Enter the name, title, and business telephone number of the person who should be contacted regarding information submitted on this form.

Item VI - Type of PCB activity. Mark the appropriate box(es) to show which PCB activities are taking place at this facility.

A. Generator with onsite storage facility: You are a generator with an onsite storage facility under this notification requirement if you are a user, owner, or processor of PCB's or PCB items and you maintain your own storage facilities subject to 40 CFR 761.65(b) or (c)(7) for PCB's. If you are a generator with an onsite storage facility, mark an "X" in this box.

B. Commercial storer: You are a commercial storer if you own or operate a storage facility which is subject to the storage facility standards of 40 CFR 761.65(b) or (c)(7), and which engages in offsite storage activities involving the PCB waste generated by others. Most commercial storers of PCB waste perform waste storage services in exchange for a fee or other compensation, but the receipt of compensation is not necessary for your storage facility to qualify as a commercial storer of PCB

wastes under this notification requirement. It is sufficient that your facility stores PCB wastes generated by others. See definition of commercial storer in 40 CFR 761.3. If you are a commercial storer, mark an "X" in this box.

C. Transporter: If you move PCB's by air, rail, highway, or water, then mark an "X" in this box.

D. Permitted disposer: If you currently hold a valid EPA permit to dispose of PCB's in concentrations exceeding 50 ppm in a landfill, through alternative technology or incineration, mark an "X" in this box.

Item VII - Certification: This certification must be signed by the owner, operator, or an authorized representative of the facility. An "authorized representative" is a person responsible for the overall operation of the facility (i.e., a plant manager or superintendent, or a person of equal responsibility). All notifications must include this certification to be complete.
